SUBJECT INDEX

Accuracy

Estimation of Error and Compliance in Surveys by Kriging, John M. H. Barton, Steven G. Buchberger and Michael J. Lange, SU May 99, p87-108.

Improvement of GPS Relative Positioning Accuracy by Using SNR, Lawrence Lau and Esmond Mok, SU Nov. 99, p185-202.

Algorithms

Improvement of GPS Relative Positioning Accuracy by Using SNR, Lawrence Lau and Esmond Mok, SU Nov. 99, p185-202.

Total Least Squares Spiral Curve Fitting, Thomas G. Davis, SU Nov. 99, p159-176.

Alignment

Optimum Vertical Curves for Highway Profiles, Said M. Easa, SU Aug. 99, p147-157.

Approximation methods

Total Least Squares Spiral Curve Fitting, Thomas G. Davis, SU Nov. 99, p159-176.

Case reports

Determination of Local Geoid with Geometric Method: Case Study, Yang Zhan-ji and Chen Yong-qi, SU Aug. 99, p136-146.

Charts

Simple Approximation of Area Determination on Mercator Chart of Sphere, Gaye Onursal and Zafer Kızılsu, SU Nov. 99, p203-210.

Computer networks

Introducing Groupware to Distributed Geomatics Production Environments, David B. Finley and David J. Coleman, SU Feb. 99, p1-16.

Curvature

Optimum Vertical Curves for Highway Profiles, Said M. Easa, SU Aug. 99, p147-157.

Total Least Squares Spiral Curve Fitting, Thomas G. Davis, SU Nov. 99, p159-176.

Data processing

Tailored Datum Transformation Model for Locally Distributed Data, Hüseyin Bâki Iz and Yong-qi Chen, SU Feb. 99, p25-35.

Data systems

Tailored Datum Transformation Model for Locally Distributed Data, Hüseyin Bâki Iz and Yong-qi Chen, SU Feb. 99, p25-35.

Databases

LSA Validation of Digitized Rectangular and Straight-Line Features, Dajie Liu, Xiaolin Meng and Rongxing Li, SU Feb. 99, p17-24.

Deformation

Simple Approximation of Area Determination on Mercator Chart of Sphere, Gaye Onursal and Zafer Kızılsu, SU Nov. 99, p203-210.

Diffraction

Total Least Squares Spiral Curve Fitting, Thomas G. Davis, SU Nov. 99, p159-176.

Digital mapping

Introducing Groupware to Distributed Geomatics Production Environments, David B. Finley and David J. Coleman, SU Feb. 99, p1-16.

Digital systems

LSA Validation of Digitized Rectangular and Straight-Line Features, Dajie Liu, Xiaolin Meng and Rongxing Li, SU Feb. 99, p17-24.

Distributed processing

Introducing Groupware to Distributed Geomatics Production Environments, David B. Finley and David J. Coleman, SU Feb. 99, p1-16.

Error analysis

Estimation of Error and Compliance in Surveys by Kriging, John M. H. Barton, Steven G. Buchberger and Michael J. Lange, SU May 99, p87-108.

Tailored Datum Transformation Model for Locally Distributed Data, Hüseyin Bâki Iz and Yong-qi Chen, SU Feb. 99, p25-35.

Errors

Generalized Shrunken-Type Robust Estimation, Gui Qingming and Liu Jinshan, SU Nov. 99, p177-184.

Estimation

Generalized Shrunken-Type Robust Estimation, Gui Qingming and Liu Jinshan, SU Nov. 99, p177-184.

Geodesy

Reliabilities of χ^2 and F Tests in Gauss-Markov Model, Şerif Hekimoğlu, SU Aug. 99, p109-135.

Geographic information systems

GIS-Based Approach to Sewer System Design, Richard Greene, Newland Agbenowosi and G. V. Loganathan, SU Feb. 99, p36-57.

Introducing Groupware to Distributed Geomatics Production Environments, David B. Finley and David J. Coleman, SU Feb. 99, p1-16.

LSA Validation of Digitized Rectangular and Straight-Line Features, Dajie Liu, Xiaolin Meng and Rongxing Li, SU Feb. 99, p17-24.

Geoid

Determination of Local Geoid with Geometric Method: Case Study, Yang Zhan-ji and Chen Yong-qi, SU Aug. 99, p136-146.

Geometry

Determination of Local Geoid with Geometric Method: Case Study, Yang Zhan-ji and Chen Yong-qi, SU Aug. 99, p136-146.

Global positioning

Determination of Local Geoid with Geometric Method: Case Study, Yang Zhan-ji and Chen Yong-qi, SU Aug. 99, p136-146.

Improvement of GPS Relative Positioning Accuracy by Using SNR, Lawrence Lau and Esmond Mok, SU Nov. 99, p185-202.

Road Slope Information from GPS-Derived Trajectory Data, Shaowei Han and Chris Rizos, SU May 99, p59-68.

Tailored Datum Transformation Model for Locally Distributed Data, Hüseyin Bâki Iz and Yong-qi Chen, SU Feb. 99, p25-35.

Height

Determination of Local Geoid with Geometric Method: Case Study, Yang Zhan-ji and Chen Yong-qi, SU Aug. 99, p136-146.

Highways

Optimum Vertical Curves for Highway Profiles, Said M. Easa, SU Aug. 99, p147-157.

Identification

Robustifying Conventional Outlier Detection Procedures, Şerif Hekimoğlu, SU May 99, p69-86.

Integrated systems

GIS-Based Approach to Sewer System Design, Richard Greene, Newland Agbenowosi and G. V. Loganathan, SU Feb. 99, p36-57.

Kalman filter

Road Slope Information from GPS-Derived Trajectory Data, Shaowei Han and Chris Rizos, SU May 99, p59-68.

Kriging

Estimation of Error and Compliance in Surveys by Kriging, John M. H. Barton, Steven G. Buchberger and Michael J. Lange, SU May 99, p87-108.

Least squares method

Total Least Squares Spiral Curve Fitting, Thomas G. Davis, SU Nov. 99, p159-176.

Mapping

Simple Approximation of Area Determination on Mercator Chart of Sphere, Gaye Onursal and Zafer Kızılsu, SU Nov. 99, p203-210.

Modeling

Optimum Vertical Curves for Highway Profiles, Said M. Easa, SU Aug. 99, p147-157.

Noise

Improvement of GPS Relative Positioning Accuracy by Using SNR, Lawrence Lau and Esmond Mok, SU Nov. 99, p185-202.

Optimization models

Optimum Vertical Curves for Highway Profiles, Said M. Easa, SU Aug. 99, p147-157.

Probabilistic methods

Reliabilities of χ^2 and F Tests in Gauss-Markov Model, Şerif Hekimoğlu, SU Aug. 99, p109-135.

Procedures

Robustifying Conventional Outlier Detection Procedures, Şerif Hekimoğlu, SU May 99, p69-86.

Profiles

Optimum Vertical Curves for Highway Profiles, Said M. Easa, SU Aug. 99, p147-157.

Reliability

Reliabilities of χ^2 and F Tests in Gauss-Markov Model, Şerif Hekimoğlu, SU Aug. 99, p109-135.

Roads

Road Slope Information from GPS-Derived Trajectory Data, Shaowei Han and Chris Rizos, SU May 99, p59-68.

Robust design

Robustifying Conventional Outlier Detection Procedures, Şerif Hekimoğlu, SU May 99, p69-86.

Rock masses

Robustifying Conventional Outlier Detection Procedures, Şerif Hekimoğlu, SU May 99, p69-86.

Sewer design

GIS-Based Approach to Sewer System Design, Richard Greene, Newland Agbenowosi and G. V. Loganathan, SU Feb. 99, p36-57.

Signals

Improvement of GPS Relative Positioning Accuracy by Using SNR, Lawrence Lau and Esmond Mok, SU Nov. 99, p185-202.

Slopes

Road Slope Information from GPS-Derived Trajectory Data, Shaowei Han and Chris Rizos, SU May 99, p59-68.

Spatial data

GIS-Based Approach to Sewer System Design, Richard Greene, Newland Agbenowosi and G. V. Loganathan, SU Feb. 99, p36-57.

LSA Validation of Digitized Rectangular and Straight-Line Features, Dajie Liu, Xiaolin Meng and Rongxing Li, SU Feb. 99, p17-24.

Spheres

Simple Approximation of Area Determination on Mercator Chart of Sphere, Gaye Onursal and Zafer Kızılsu, SU Nov. 99, p203-210.

Statistical analysis

Generalized Shrunken-Type Robust Estimation, Gui Qingming and Liu Jinshan, SU Nov. 99, p177-184.

Reliabilities of χ^2 and F Tests in Gauss-Markov Model, Şerif Hekimoğlu, SU Aug. 99, p109-135.

Surveying

Generalized Shrunken-Type Robust Estimation, Gui Qingming and Liu Jinshan, SU Nov. 99, p177-184.

Surveys

Estimation of Error and Compliance in Surveys by Kriging, John M. H. Barton, Steven G. Buchberger and Michael J. Lange, SU May 99, p87-108.

Terrain mapping

Simple Approximation of Area Determination on Mercator Chart of Sphere, Gaye Onursal and Zafer Kızılsu, SU Nov. 99, p203-210.

Tests

Reliabilities of χ^2 and F Tests in Gauss-Markov Model, Şerif Hekimoğlu, SU Aug. 99, p109-135.

Topographic mapping

Estimation of Error and Compliance in Surveys by Kriging, John M. H. Barton, Steven G. Buchberger and Michael J. Lange, SU May 99, p87-108.

Transformations

Tailored Datum Transformation Model for Locally Distributed Data, Hüseyin Bâki Iz and Yong-qi Chen, SU Feb. 99, p25-35.

Validation

LSA Validation of Digitized Rectangular and Straight-Line Features, Dajie Liu, Xiaolin Meng and Rongxing Li, SU Feb. 99, p17-24.
